

**BSAVA : THE
ABSTRACT
SESSIONS**

CONGRESS 2020

Clinical Abstract Presentations Online

14-15 May 2020

PROGRAMME

What?

BSAVA Congress is built on a foundation of community and learning. An integral part of the 4-day live event is the diverse programme of clinical abstracts where researchers alongside vets, VN's and practice staff share the latest research, unusual case reports and novel procedures.

Clinical Abstracts are part of an ever-expanding programme of CPD, showcasing concepts and the latest thinking from around the globe and across the veterinary spectrum. At Congress 2019, 161 abstracts were presented under a wide range of disciplines.

A large selection of the Congress 2020 research abstracts will be presented live over two days (Thursday 14 and Friday 15 May), using an online video conferencing solution; shared with a veterinary audience invited from across the UK and worldwide. Each session will be chaired with Q&A's available. The programme is listed on the following pages.

We are delighted to provide the opportunity to unite colleagues across the veterinary world, who would otherwise have not had the opportunity to present their work and keep up to date with the latest research produced by BSAVA members and colleagues.

Who?

These sessions will be suitable for audience members from across the small animal veterinary field who are interested in seeing the latest clinical research abstracts, as well as interacting with colleagues. Both BSAVA members and non-members are invited to take part in this online CPD event.

This event is part of a number of online solutions being provided by the Association in the wake of the cancelled BSAVA Congress 2020.

PROGRAMME: Thursday 14 May 2020

SESSION 1: Surgery (including Anaesthesia)

09:00

Efficacy of a single intra-articular administration of autologous platelet therapy in police working dogs with hip osteoarthritis

João Alves

09:15

Comparison of accuracy of free-hand, fluoroscopically guided, and aiming device assisted drilling

Ian Faux

09:30

Medial epicondylar fissure fracture as a complication during stabilisation of humeral intracondylar fissures

Georgia Jenkins

09:45

Computed tomographic (CT) measurement of femoral trochlear groove depth in brachycephalic dogs

Alexandra Matchwick

10:00

Rotation of the proximal bone fragment during tibial plateau levelling osteotomy to control severe haemorrhage from the cranial tibial artery: cadaveric experimental study

Leonor Roses

10:15

The use of transarticular external skeletal fixation to protect the primary repair of a patellar fracture in five dogs

Mara Sprocatti

10:30 BREAK

10:45

End to end anastomosis of the common bile duct and cholangioduodenostomy for treatment of extrahepatic cholangiocarcinoma in an eleven-year-old cat

Alexandra Jifcovi

11:00

Pyelotomy to remove a large nephrolith in a female Shih Tzu with bilateral nephrolithiasis and immune-mediated haemolytic anaemia with thrombocytopenia (Evans Syndrome)

Andrea Kilduff-Taylor

11:15

Curative minimal ostectomy for oral osteoma in 2 dogs: a case series

Jamie-Leigh Thompson

11:30

Surgical adhesiolysis to treat chronic non-specific post-operative gastrointestinal tract signs in a dog

Joep Timmermans

11:45 BREAK

12:00

Perioperative analgesic management of thoracic surgery in dogs: A descriptive study of 71 cases (2015–2018)

Luis Correa

12:15

Medical management of tracheal collapse in dogs, a retrospective study

Katherine Clarke

12:30

Association between computed tomography findings and short-term outcome in UK dogs with pyothorax

Aldara Eiras Diaz

12:45

Intranasal meningoencephalocele in a one-year-old Staffordshire Bull Terrier with unilateral destructive rhinitis

Sofia Rapastella

13:00 LUNCH BREAK

PROGRAMME: Thursday 14 May 2020

SESSION 2: Neurology, Primary Practice and the Profession

14:00

Owners and veterinary practitioners' viewpoint of the future direction of research in canine epilepsy

Gareth Jones

14:15

Retrospective analysis of the diagnostic utility of cerebrospinal fluid preserved by the addition of 10% buffered formalin and EDTA

Ivan Montañés

14:30

Thoracolumbar intervertebral foraminal and far lateral disc extrusions in dogs: clinical signs, MRI findings and short-term outcome

Sara Silva

14:45

Suspected 3-hydroxy-3-methylglutaric aciduria (HMGA) in domestic shorthaired cats

Natalie West

15:00 BREAK

15:15

Hot dogs: which dog types have highest risk of heat related illness in the UK?

Emily Hall

15:30

Hot dogs: what triggers fan the flames of heat related illness for UK dogs?

Emily Hall

15:45

Owner-perceived adverse reactions within two days of vaccine administration in dogs

Rachel Kinsman

16:00

Training methods and reported problem behaviours in a cohort of dogs

Joshua Woodward

16:15 BREAK

16:30

Gender diversity in invited speakers 2010–19 and abstract presenters 2014–2019 at BSAVA congress

Vasiliki Lantzaki

16:45

The role of veterinary practices in the temporary care of healthy stray dogs: do veterinary personnel and members of the public agree?

Louise Buckley

17:00

Frequency and types of communication errors in practice

Elly Russell

17:15 CLOSE

PROGRAMME: Friday 15 May 2020

SESSION 3: Internal Medicine (including Diagnostic Imaging)

09:00

Laboratory assessment of calcium disorders in dogs and cats

Barbara Costa

09:15

Evaluation of basal cortisol testing in dogs with chronic gastrointestinal signs

Ana Fernandez Gallego

09:30

H1-NMR-based metabolomics provides new insights into canine diabetes mellitus fissures

Claudia Ottka

09:45

Development of a novel diagnostic prediction tool for Cushing's syndrome in dogs, using primary-care electronic patient records

Imogen Scholfield

10:00 BREAK

10:15

The importance of measurement of ionised calcium in characterisation of diseases in a referral population of dogs with polyuria and polydipsia

Sophie Broughton

10:30

Sterile pyogranulomatous lymphadenitis in an 8-month-old Golden Retriever with nictitans conjunctivitis as the leading sign

Marina Martin-Ambrosio

10:45

Comparison of short-term treatment of dogs with non-regenerative immune-mediated anaemia, treated with prednisolone alone or in combination with azathioprine or ciclosporin

Cecilia Stillwell

11:00

Diagnostic quality of bone marrow sampling and associated complications in dogs and cats

Glynn Woods

11:15 BREAK

11:30

Diagnostic value of serum bile acids concentrations in dogs with hepatobiliary disease

Jorge Pena-Ramos

11:45

Extrahepatic biliary duct obstruction caused by an helminth in a cat in the UK

Francesca Venier

12:00

Retrospective evaluation of UK dogs with detrusor-urethral dyssynergy (37 cases)

Cecilia Stillwell

12:15

The first Core Outcome Set for cats: the most important parameters to assess in feline CKD treatment

Hannah Doit

12:30

Computed tomographic features and treatment of extensive intermuscular abscessation in a German shepherd dog with systemic lupus erythematosus

Emily Brand

12:45

Accuracy of radiographic diagnosis of pneumoperitoneum in the dog and cat

Rachel Marwood

13:00 LUNCH BREAK

PROGRAMME: Friday 15 May 2020

SESSION 4: Oncology

- 14:00**
Staging, treatment protocols and outcome in cats with sinonasal carcinomas treated with radiotherapy: a single centre retrospective study of 16 cases
Petros Frezoulis
- 14:15**
Collision tumour of two nodal metastases (apocrine adenocarcinoma and mast cell tumour) in a dog (a case study)
Danielle Gibson
- 14:30**
The use of pleural port and intra-cavitary chemotherapy in treatment of thoracic mesothelioma in 13 dogs
Hanne Moberg
- 14:45**
Palliative radiotherapy for oral non-lingual and non-tonsillar SCC in dogs: a retrospective study of 21 cases from two referral centres in the UK
Andrea Mosca
- 15:00**
Management of suspected canine multicentric lymphoma in UK first opinion practice
Konstantinos Rigas
- 15:15 BREAK**
- 15:30**
Lomustine, methotrexate, and cytarabine chemotherapy as a rescue treatment for feline lymphoma
Katherine Smallwood
- 15:45**
Primary pancreatic extraskeletal osteosarcoma in a domestic shorthair cat previously diagnosed with diabetes mellitus
Katarzyna Smiejan
- 16:00**
TRAF3 mutations in canine B-cell lymphoma
Patrick Smith
- 16:15**
Matrical carcinomas: a case series of four dogs
Giulia Tosi
- 16:30**
Neoplastic pericardial effusion and widespread intrathoracic metastasis in a dog with a high-grade cutaneous mast cell tumour: first description
Andy Yale
- 16:45 CLOSE**

Don't miss out – book now to take part

You can book any or all of the 4 available sessions **FREE OF CHARGE**.
